

Dear Sirs, Due to the recent WRC-03 ruling on the Morse perficiency examanation (Eliminating the requirement) I request that the F.C.C. also follow the recomendations as set forth in RM-10787, thereby lifting the test to prove Morse ability. As all well know the digital method of communication is a far superior method of sharing information rapidly and correctly. The majority of the Amateur community nolonger utilizes the analog Dit- Dah method, but rather the modern digital or even video means of communication.

Thank you for allowing some short comments.

Vincent Garcell (WA6VJG)
